

HARINI SRI K B

PYTHON DEVELOPER | AIML ENTHUSIAST

+91-8220651353 kbharinisri2020@gmail.com harini-sri-k-b harinisrikb

Summary

B.Tech graduate in Computer Science and Engineering (AIML) with hands-on experience in ML model development, cross-platform mobile app design, and full-stack web development. Built end-to-end projects spanning healthcare AI, mental health analytics, and social impact. Seeking a Python Developer or AIML role to build intelligent, impactful solutions.

Skills

Languages: Python, JavaScript, HTML, CSS, SQL, Dart, Java

Frameworks & Libraries: Flask, Streamlit, Flutter, Scikit-learn, TensorFlow, OpenCV, Firebase

Tools: Git, GitHub, Google Maps API, REST APIs, MySQL

Core CS: Data Structures & Algorithms, OOP, DBMS, Machine Learning

Experience

Web Development Intern

Qono Technologies, Coimbatore

June 2024 – July 2024

Tools: HTML, CSS, JavaScript, Flask, Git

- Developed **3+ responsive web pages** with HTML, CSS, and JavaScript; integrated Flask backend for dynamic content rendering.
- Collaborated with a **team of 4** on API integration, deployment workflows, and cross-device responsive design.

Tech Intern

GUVI HCL

Sep 2024 – Oct 2024

Tools: Python, Flask, Git

- Completed hands-on tasks in **Flask-based web app development** and REST API design in a collaborative team environment.

Projects

Heart Stroke Prediction System | *Python, Scikit-learn, XGBoost, Pandas*

Jan – Apr 2025

- Developed an ML-based healthcare prediction system to identify stroke risks using **5,000+ patient health records**, supporting early medical assessment and risk analysis.
- Trained and compared **4 models** (Random Forest, XGBoost, Logistic Regression, Naive Bayes) with preprocessing — missing value handling, feature selection, normalization — achieving **~91% accuracy**.
- Reduced false-positive predictions by **~18%** through ensemble tuning and cross-validation across 3 test splits.

Psychology Chatbot | *Python, Scikit-learn, Streamlit, NLP*

Feb – Apr 2024

- Built an ML-powered chatbot assessing mental health across **5 response categories** using Scikit-learn classifiers, achieving **~85% classification accuracy** on **1,200+ user response samples**.
- Designed a real-time **Streamlit frontend** delivering instant mental health feedback with an intuitive, user-friendly interface accessible from any browser.

Save Food App | *Flutter, Firebase, Dart, Google Maps API, REST APIs*

Aug – Nov 2024

- Built a cross-platform mobile app connecting food donors with recipients through **real-time listings, Firebase Auth, and push notifications** via FCM, cutting manual coordination by **~60%**.
- Designed system architecture with Flutter frontend and Firebase backend — real-time database sync, Google Maps API integration within **3 km radius**, and optimized data handling for live food listing updates.

Awards & Certifications

- **Oracle Cloud Infrastructure 2025 – Data Science Professional:** Certified in building and deploying ML models on Oracle Cloud Infrastructure.
- **Web Development with Python Flask – GUVI HCL (2025):** Completed hands-on training in Flask web app development and REST API design.
- **Generative AI – GUVI HCL (2025):** Learned GenAI fundamentals, prompt engineering, and AI-driven workflow design.

Education

B.Tech – Computer Science and Engineering (AIML)

Kalasalingam Academy of Research and Education, Krishnankoil

2022 – 2026

CGPA: 8.13 / 10

Higher Secondary Certificate (Class XII)

CEOA Matric Higher Secondary School, Madurai

2020 – 2022

Marks: 496 / 600 (83%)
